

BREEDERS BLEND

Breeders Blend is a 100% natural feed supplement comprising of *Ascophyllum nodosum* and *Lithothamnium* which provides a formulated balance of vitamins and minerals, supporting the overall well-being of the mare and healthy embryo development.

Ascophyllum nodosum seaweed from the cold North Atlantic has been used for centuries as a natural source feed supplement, low in iodine and rich in vitamins, minerals and amino acids. It is composed of 48 elements, 16 amino acids and 11 vitamins.

The macro algae is hand harvested in accordance with traditional and sustainable methods that have been used for centuries along the Atlantic coastline of Ireland.

Lithothamnium calcareum is a red algae belonging to the Corallinaceae family. It grows extremely slowly, giving it time to filter and absorb large quantities of sea nutrients. *Lithothamnium* provides a rich supply of minerals including 32 trace elements.

This naturally balanced mix of minerals, vitamins, amino acids and antioxidants helps to promote a healthy immune system and gut environment and aids the overall well-being of the horse.

The flax oil levels in Breeders Blend provide an excellent source of ALA, a long chain essential fatty acid and precursor of eicosanoids including EPA and DHA, which also play a key role in development of the healthy foetus and the quality of the mare's milk.

Breeders Blend is specially formulated for mares and foals.
Powered by Irish goodness for naturally healthy horses.

INGREDIENTS

Lithothamnium, magnesium oxide, yeast, live yeast, macro algae, flax oil, *ascophyllum nodosum* low temperature dried granules, calcareous marine seaweed (*lithothamnium*) spp and other minerals. Cadmium 0.32 mg/kg, Copper 15000 mg/kg, Fluoride 170 mg/kg, Iodine 0.33 mg/kg, Lead 0.27 mg/kg, Mercury 0.03 mg/kg, Magnesium 15000 mg/kg, Molybdenum <3 mg/kg, Nitrogen 1.10 %, Phosphorous 1100 mg/kg, Potassium 1100 mg/kg, Selenium <3mg/kg, Zinc 160 mg/kg.

Immun-Ocean Breeders Blend does not contain any ingredient known to contravene the Jockey Club, FEI or BSJA rules. Immun-Ocean Breeders Blend is free of contaminants such as caffeine, theobromine, hyoscyne, hordenine, morphine and atropine.

Note: the values listed above are typical. Components of Immun-Ocean Breeders Blend are natural products of marine origin and as such, are subject to seasonal variation.

Manufacturers Registration No: IEC 102244

FEEDING INFORMATION

Breeders Blend is available in 5kg tubs (100 days). It is available in both powder and pellet form.
Feed 25g twice a day and introduce gradually.
