## Material Safety Data Sheet

### **ELECTROLYTE GOLD**

**Product Name** Electrolyte Gold

#### **Information on Ingredients**

##### Composition

Crude Protein	14.7 %
Crude Oil	2.2 %
Crude Fibre	<0.1 %
Crude Ash	56.5 %

#### **Hazards Identification**

##### Symptoms relating to use

- Inhalation Not expected to cause a significant hazard under anticipated conditions of normal use.
- Skin contact None under normal conditions.
- Eye contact There may be irritation and redness.
- Ingestion None under normal conditions.

#### **First Aid Measures**

- Inhalation Remove the person to fresh air and ventilate with fresh air.
- Eye contact Flush with lukewarm water for 15 minutes. Get medical attention if irritation results.
- Skin Contact It is recommended that the material be brushed off the skin and washed with clean water.

#### **Fire – fighting measures**

- Extinguishing media Carbon dioxide, dry chemical powder, alcohol or polymer foam.

### **Accidental release measures**

It is acceptable to sweep up/vacuum the material. It might be appropriate to wash the area but local requirements should dictate this action.

### **Handling and storage**

It is recommended that the product is stored in a cool, dry place. It is recommended that a sensible approach to handling the product to avoid contact with eye, skin, inhalation.

### **Exposure controls / personal protection**

No special or specific personal protection measures are put forward for the handling of the product except for those relating to the handling of large quantities of non-toxic material as follows:

Respiratory protection: Use a suitable respiratory protective device

Hands protection: Use gloves

Eye protection: Use goggles

Skin protection: Use suitable clothing

### **Physical and Chemical properties**

Appearance: White powder

Odour: Odourless

Solubility in water: Soluble in water

### **Stability and reactivity**

It is recommended that the product be protected from heat, flames and/or an ignition source for quality purposes.

The product is stable under normal storage conditions.

### **Toxicological information**

Non-toxic under normal conditions of use.

### **Ecological information**

No significant environmental hazard or adverse effect from human exposure resulting from the accidental release of this material is anticipated.

### **Disposal considerations**

The product is biodegradable and it is thus not expected to result in any persistent environmental problems.

### **Transportation information**

Not applicable

### **Other information**

Recommended uses: Equine Neutraceutical
