

PRESTO

THE IDEAL MORTONE PARTNER

Adjuvant for herbicides

An emulsifiable concentrate formulation containing
38% w/w (435 g/l) alkyl polyglycoside

PCS No 92445

4 BENEFITS IN 1 ONE PRODUCT:

WETTER

Fast Spreading and Uniform Distribution
- Improved deposition of spray

STICKER

Increases the retention time on the leaf.

PENETRANT

Optimises Penetration of leaf thanks to
the adjuvant component EAC.

RAINPROOFER

Makes the Herbicide Rainfast quicker

PRESTO an ideal adjuvant for herbicides
based on natural plant extract.
Especially suited for use with **MORTONE**.

Presto can be used with all Broad Leaf Herbicides. Other uses include use with Mortox 50 for the control of Ragwort.

Contains a natural biodegradable waterproofing polymer. Shower proof when spray is touch dry. Rain fast approximately 30 minutes after spray has dried, sunlight is required during this period for the polymer to set.

APPLICATION RATE

Apply at rate of 200ml / ha using either boom or knapsack.

GENERAL INFORMATION

A superior, nonionic wetting agent, designed for water based pesticide applications in horticulture, industrial, turf, and forestry operations. It is designed for fast spreading, uniform distribution, and absorption of spray on leaf and stem surfaces. May be used with most pesticides and fertilizer products. Optimum application and consequent effects, can be influenced by many factors. It is recommended that the spray be observed, and adjuvant rates be adjusted accordingly. During application, insure thorough coverage without excessive runoff.

An emulsifiable concentrate formulation containing 38% w/w (435 g/l) alkyl polyglycoside.

FOR USE AS A SURFACTANT / WETTING AGENT WITH AGRICULTURAL AND HORTICULTURAL PRODUCTS
