Diagram of Setup

## Connection Details:

- Connect the Red Clip of the Energiser to the positive (+) terminal of the battery.
- Connect the Black Clip of the Energiser to the negative (-) terminal of the battery.

- Connect the Red Clip of the Solar Panel to the positive (+) terminal of the battery.
- Connect the Black Clip of the Solar Panel to the negative (-) terminal of the battery.

Place the Solar Panel in the sun facing south and ensure the battery is fully charged initially.

Diagram of Operation

Solar Panel	12V Battery	Fence Energiser
The Solar Panel supplies power to the 12V battery	The 12V battery supplies power to the Fence Energiser	The Fence Energiser supplies power to the fence line

Fencer Placement

Place the Fence Energiser, with the terminals and switches facing down, in the storage area beneath the panel.

Important Notice:
DO NOT ATTACH THE CLIPS OF THE SOLAR PANEL TO THE STEEL FRAME!
