

NANO DUAL

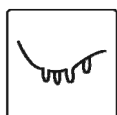

FOAMING LACTIC ACID & CHLORHEXIDINE PRODUCT FOR PRE & POST MILKING HYGIENE

- Ready to use
- Unique combination of chlorhexidine and lactic acid for additional activity
- Contains glycerine for superior teat condition
- Real peppermint oil helps improve blood flow to teats

RECOMMENDED USAGE

Ready to use teat spray or dip. For pre & post milking hygiene.

PRE-MILKING

1. The product should be used directly from the container without dilution.
2. Fill dip cup or foaming dip cup two thirds full and immerse each teat ensuring that the entire surface of the teat is covered OR Spray the full length of each teat.
3. Allow a minimum contact time of 30 seconds.
4. Dry teats thoroughly with a paper towel to remove residue.
5. Apply clusters.

POST-MILKING:

1. The product should be used directly from the container without dilution.
2. Fill teat cup two thirds full and immerse each teat ensuring that the entire surface of the teat is covered OR Spray the full length of each teat.
3. Refill the dip cup as necessary. Dip cups should be emptied after use and washed before re-use.

Nano Dual can be used with a specially adapted foam dipping cup. Squeeze the bottle until the foam fills the cup. If used in sprayers, rinse pipes thoroughly with clean water between different products.

Storage: Store in a dry well ventilated area away from sources of heat or ignition

Pack Size: 25, 200 & 1000 litre

Shelf Life: 2 years from date of manufacture
